

# Sleep Support

## DESCRIPTION

Sleep Support contains key ingredients that support a restful night's sleep.

## FUNCTIONS

Sleep is vital to our mental, emotional and physical functioning. Research has shown that lack of sleep has a negative effect on mood, short-term memory, reaction time, alertness and the immune system. Factors that interfere with sleep include: stress, anxiety, caffeine consumption, alcohol consumption, eating late at night, overstimulation (TV, work, noise), medications (antidepressants, appetite suppressants and decongestants), health conditions (arthritis, hyperthyroidism and indigestion), and sleep apnea. Alternately, there are many lifestyle habits that can promote healthy sleep, such as stopping caffeine consumption after noon, making your bedroom completely dark and avoiding activities that stimulate the brain (such as watching TV) before bed. The ingredients in sleep support provide a broad spectrum of nutrients and herbs plus the hormone melatonin to assist in falling asleep, staying asleep and sleeping deeply. Melatonin, a hormone secreted by the pineal gland, has been shown to regulate the sleep/wake cycle, assist with sleep onset and improve sleep quality. Vitamin B6 is necessary for the production of the neurotransmitter serotonin, the precursor to melatonin. Valerian, a botanical traditionally used to support healthy, sleep facilitates the onset of deep sleep. Passion flower and L-Theanine have been included for their anti-anxiety and anti-stress properties.

## INDICATIONS

Sleep Support may be a useful dietary supplement for those who wish to enhance their ability to fall asleep and sleep soundly.

## SUGGESTED USE

Adults take 1 capsule before bed time or as directed by a healthcare professional.

## STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.

## FORMULA (WW #10254)

### 1 Capsule Contains:

Vitamin B6 (as pyridoxine HCl).....	2 mg
Magnesium (as carbonate).....	50 mg
Melatonin.....	1 mg
L-Theanine.....	100 mg
Passion flower aerial extract.....	100 mg
<i>(Passiflora incarnata)</i>	
(Standardized to 3.5% [3.5 mg] Vitexin)	
Valerian root extract.....	50 mg
(Standardized to 0.8% (0.4 mg) Valerenic Acids)	
Other Ingredients: capsule (gelatin, water), cellulose, vegetable stearin, magnesium stearate, and silica.	

This product contains NO sugar, salt, dairy, yeast, wheat, gluten, soy, preservatives, artificial colors or flavors.

## SIDE EFFECTS
